

USATF annual meeting report.

I attended the association's presence was present and past presidents meeting. Accreditation standards are being worked on. No coaches education will be required and club membership will be at one have club per 100,000 population. Next I attended the executive board session of the associations committee where we talked about workshops for next year and had a presentation from Mr. Vin Lananna. He talked about the outdoor world championships to be held in Portland and 2021. We next had the associations general business meeting, our proposal to move the accreditation away from the organization subcommittee and do it ourselves was excepted by the L&L group. Conflict resolution was discussed next with many procedures outlined in detail. The Midwest regional meeting was held and we got a volunteer of the year in one Elinor Tootle
