

Report to Ohio Association on
2016 Annual Meeting---Orlando, FL

As a delegate to the annual convention, I was assigned to attend Association committee meetings. I was also assigned to vote as Karen Krsak's representative to the Officials committee. On a personal note, I decided to run for Vice Chair-Planning and Workshops on the Association committee.

We went over the accreditation process, how to conduct a meeting, what constitutes "effective" notification, legacy emails, where to find proper forms, the Association Management Area, and advice on being sure to familiarize yourself with your By-Laws and Regulations.

We were told money will be available to help struggling associations meet accreditation goals.

The Officials insurance program cost will be picked up by the Officials committee.

We are allowed only one website per association. All other current websites need to be linked to the main website web page.

I spent most of the business session in the Official's committee meeting voting as Karen's representative.

I was elected to be Vice-Chair planing and workshop.

At the final General meeting of the membership, I voted against the resolution presented by the lawyer for the former Youth Executive Committee.
